Hello Everyone, the Buyback is here.

Instructions

Redeem your FREE here:
https://exit.gnosisguild.org/#/eth:0x76e0900129949Ad035DD14FA7C29C73f37dF6ae2
↳ it's pretty self-explanatory but if you would like a walkthrough:
https://zodiac.wiki/index.php/Exit_App:_Member_Tutorial#Token_Exit_(ERC-20)

After redemption you will receive ETH and FREE2 pro-rata according to what % of the supply of FREE you redeemed.
↳ FREE2: 0x0b002754cd713b8e6392c18a4ed8245e3fd84f39

This FREE2 token is the non-voting token (fka 'loot token') of a Moloch DAO (v3)

This is the Moloch DAO created as specified in the proposal that was passed in May 2023
↳

↳ Quorum 45%, 2 Day voting window, 2 Day Grace Period

The governance tokens (DOVE) have been distributed pro-rata to the top-10 holders (excluding known exchanges) in this transaction:

The Future

This Moloch DAO allows 'ragequitting' aka burning FREE2 in exchange for pro-rata contents of the Treasury Vault
↳ https://admin.daohaus.fun/#/molochv3/0x1/0x076f825c8f16102a99163a18a8bed65d1257a961/safes

So in the future, were the Genesis or Growth Collections to be sold, the proceeds would end up here.
1. Genesis Collection: if the Fractional Vault ever goes to auction, the FREE owned by this Moloch DAO will be redeemed for ETH and deposited into the Treasury.
  ↳ Fractional Vault: https://fractional.art/vaults/ross-ulbricht-genesis-collection
2. Growth Collection: the steward of these tokens will bridge and deposit ETH

At any point in the future, you may 'ragequit' the Moloch DAO by burning your FREE2 for your pro-rata share of the Treasury Vault, which is how you will collect your pro-rata share of the results of either collection going to sale.

That's It
